

# Securely enabling the mobile workforce

Nokia Mobility Conference  
2 November 2004

**David Griffin**  
**Director, Mobile Business Development**

## A Powerful Presence

- ▶ The world's leading vendor for secure content management 4 years in a row—IDC 2004
- ▶ 2004 Security Company of the Year in Europe—Frost & Sullivan
- ▶ Deployed in 95% of Fortune 500 enterprises

### Fast Facts:

- Founded 1982, IPO June 1989
- 6,000 employees in 35+ countries
- \$1.87 billion revenue in FY 2004

# Enabling the mobile workforce

- ▶ Enterprises want
  - to securely empower mobile workers
  - to provide seamless access to applications
  - information to be both available and secure

Symantec helps enterprises maintain confidence and trust in their data

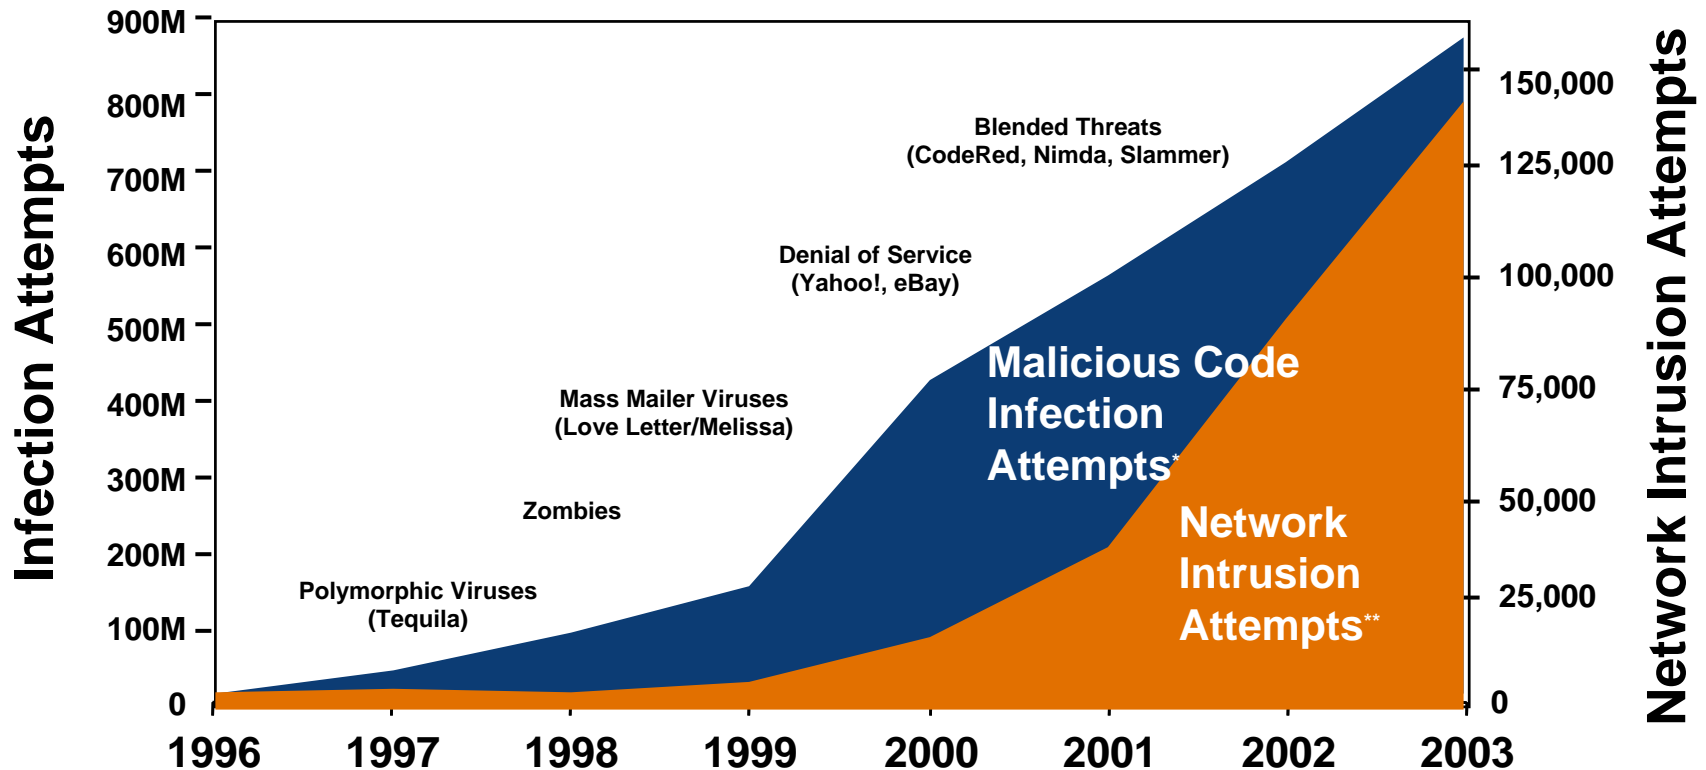

## An issue that has to be addressed

---

**“Security of these mobile devices is paramount... There are several security features that must be considered: ... authentication, encryption and virus protection.” – Gartner 2004**

# Learning from our PC history

\*Analysis by Symantec Security Response using data from Symantec, IDC & ICSA; 2003 estimated

\*\*Source: CERT

# Symantec's workforce mobility approach

---

**Secure the  
network**

**Secure the  
endpoint**

**Manage the  
endpoint**

**Symantec is at the forefront of providing enterprises,  
carriers, and consumers with total end-to-end  
protection for today's connected world**

## Best practices - “Go with what you know”

---

1. Include mobile devices in standards and policies
2. Use a VPN
3. Implement access controls
4. Secure the device

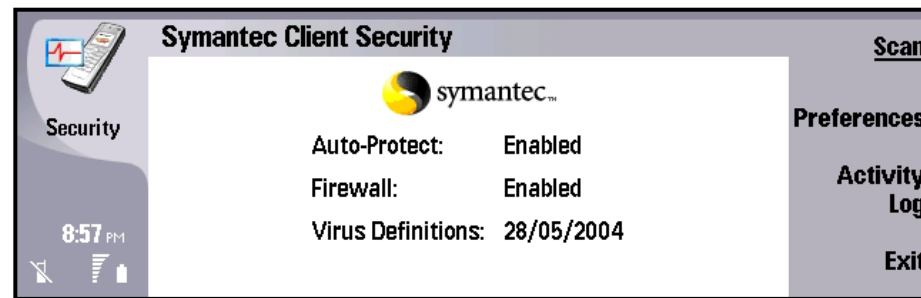

## Symantec Client Security 3.0 for Nokia Communicator

- ▶ Protects against hackers, viruses, Trojans, and worms
- ▶ Allows extension security policies to cover Nokia Communicators to mitigate threats and protect existing infrastructure

- ▶ Centralized management enables administrators to enforce security policies
- ▶ LiveUpdate™ keeps on-device protection current

## In summary

---

- ▶ Security **enables** workforce mobility
- ▶ Enterprise need to put policies and solutions into place

Symantec and Nokia are working together to ensure that enterprises can deploy mobile solutions, and use them, with confidence

---

Thank you.
