

Product: Nokia Battery BC-1S

Product type: Battery

Weight: 392 g

Materials

This product does not contain:¹

- Azo colorants and pigments with carcinogenic amino compounds
- Asbestos
- Benzene
- Beryllium Oxide
- Chlorofluorocarbons CFCs/HCFCs/Halons as banned in the Montreal Protocol
- Polychlorinated Biphenyls (PCB) or Polychlorinated Terphenyls (PCT)
- Short Chained Chlorinated Paraffins
- Materials using endangered species of flora and fauna

This product does not contain the following substances in accordance to the EU RoHS Directive 2002/95/EC:

- | | |
|-----------------|---|
| • Cadmium | • Mercury |
| • Chromium (VI) | • Polybrominated Biphenyls (PBB) |
| • Lead | • Polybrominated Diphenyl Ethers (PBDE) |

Versions of this product for China market complies with the China legislation "Management Methods on the Prevention and Control of Pollution caused by Electronic Information Products" commonly known as "China RoHS".

Eco innovation

Eco innovation is about making things better, imagining possible solutions for impossible challenges. It's about making mobile devices that reduce our impact on the environment: using sustainable and ethically sourced materials, improving energy efficiency, creating products made from renewable or recycled materials or phones that are themselves recyclable. It's about inventing software and services that help us live in a way that's kinder to the planet. Eco innovation is for everyone. We at Nokia work hard to create better solutions for tomorrow. By innovating them together we can achieve much more.

Recycling

Always return your used electronic products, batteries, and packaging materials to a dedicated collection point. This way you help prevent uncontrolled waste disposal and promote the recycling of materials. More detailed information is available from the product retailer, local waste authorities, national producer responsibility organisations, or your local Nokia representative.

Check how to recycle your Nokia products at www.nokia.com/werecycle, or if browsing on a mobile device, nokia.mobi/werecycle.

- This product has been marked according to EU Battery Directive requirement for recycling.
- Do not dispose of your product as unsorted municipal waste.
- Please separate the packaging material according to responsible waste disposal options and sorting for recycling.
- Batteries are collected separately for battery recycling. Do not throw used batteries into household waste.
