

**ECO-DECLARATION FOR BATTERY BLC-2**

Weight 27.5 g  
Size 53 mm x 38.3 mm x 7.1 mm  
Battery type is Lithium ion

**Material and design improvements**

The battery does not contain<sup>1</sup>:

- Asbestos
- Beryllium Oxide
- Chlorofluorocarbons CFCs/HCFCs/Halons as banned in the Montreal Protocol
- Polychlorinated Biphenyls (PCB) or Polychlorinated Terphenyls (PCT)
- Short Chained Chlorinated Paraffins
- The surfaces that are intended for direct and prolonged skin contact do not release nickel (Ni) above levels specified in (94/27/EEC)
- Cadmium
- Chromium VI
- Lead (in mechanical plastic parts or solder)
- Mercury
- Polybrominated Biphenyls (PBB) or Polybrominated Diphenyl Ethers (PBDE) in Printed Wiring Boards, mechanical parts and components

Batteries used in Nokia products are in conformance with the EU Directives 91/157/EEC (hazardous substances), 98/101/EC (amendment to 91/157/EEC) and EU Directive 93/86/EEC (marking).

**Energy consumption**

See Phone Features for talk and standby time figures at [www.nokia.com/phones](http://www.nokia.com/phones).

**Recycling and disassembly**

All mechanical plastic parts that can be practically marked with a visible font have been marked in accordance with ISO 11469 and ISO 1043-1 to 4.

The battery can easily be removed from the product without tools if necessary.

---

All information in this eco-declaration is based on scientific analysis and/or data provided by suppliers. There may be some variance in the information. This information is only applicable for new products. Older versions may have different specifications.

---

<sup>1</sup>In levels more than 100 PPM by weight in the product

**Instructions for the user**

- Please do not throw electronic devices into household waste but separate them for correct recycling. For environmentally sound recycling; check Nokia Recycling Map in [www.nokia.com/environment](http://www.nokia.com/environment) or local regulations for correct disposal of household electronics.
- Main materials used for packaging and user guides for Nokia products are recyclable with common recycling processes. Please separate the packaging material according to responsible waste disposal options and sorting for recycling.
- Batteries are collected separately for battery recycling. Do not throw used batteries into household waste.
