

## ECO-DECLARATION FOR NOKIA 6280

Product type: Mobile Device

Weight: 115 g

Size: Thickness 21 mm x Width 48 mm x Length 100 mm, 91 cc (cm<sup>3</sup>)

### Materials

The product does not contain<sup>1</sup>:

- Azo colorants
- Asbestos
- Benzene
- Beryllium Oxide
- Chlorofluorocarbons CFCs/HCFCs/Halons as banned in the Montreal Protocol
- Polychlorinated Biphenyls (PCB) or Polychlorinated Terphenyls (PCT)
- Short Chained Chlorinated Paraffins
- Endangered species of flora and fauna

This product complies with the EU RoHS directive 2002/95/EC after 01/12/2005.

The product does not contain the following substances in accordance to the EU RoHS Directive 2002/95/EC:

- Cadmium
- Chromium VI
- Lead (in mechanical plastic parts, solder or components)
- Mercury
- Polybrominated Biphenyls (PBB) or Polybrominated Diphenyl Ethers (PBDE) in Printed Wiring Boards, mechanical parts and components

---

<sup>1</sup> In levels more than 100 PPM by weight in the product

All information in this eco-declaration is based on scientific analysis and/or data provided by suppliers. There may be some variance in the information.

## Further material information

This product is manufactured using Lead-free solder paste.

Antimony trioxide, Brominated and Chlorinated flame retardants are not added in main printed wiring board material and covers.

The surfaces that are intended for direct and prolonged skin contact do not release nickel (Ni) above levels specified in (94/27/EEC).

Polyvinylchloride (PVC) is not used in this product or product packaging material.

## Energy consumption

The power consumption<sup>2</sup> of the product with the standard battery BP-6M in average is listed below:

Call: mW

Idle mode: mW

Charging time in idle mode with the AC-4 charger: h min

Above measures will be entered as soon as they are available and before 1. August 2006

The energy consumption is measured in conditions described in the ECTEL/TMS standard, which is aiming to provide an agreed and common means for quoting battery life and current consumption figures for GSM Mobile Stations. See Features for talk and standby time figures at [www.nokia.com/phones](http://www.nokia.com/phones). For more information on the energy consumption please see also the Eco-declaration for the charger at [www.nokia.com/environment](http://www.nokia.com/environment).

---

<sup>2</sup>GSM 1800MHz network

All information in this eco-declaration is based on scientific analysis and/or data provided by suppliers. There may be some variance in the information.

## Recycling and disassembly

All mechanical plastic parts have been marked in accordance with ISO 11469 and ISO 1043-1 to 4, where practically possible<sup>3</sup>.

Product has been marked according to WEEE directive requirement for recycling. Do not dispose of your product as unsorted municipal waste.

The covers of the product have been designed for easy disassembly at the end of the product's life cycle.

The battery can easily be removed from the product without tools if necessary.

Gluing of different materials has been avoided.

All the screws in the product can be opened by one tool.

## INSTRUCTIONS FOR THE USER

- Always unplug the charger from the wall socket after the phone is fully charged. This avoids unnecessary power consumption of the charger in standby and saves energy.
- Electronic devices shall not be thrown into household waste but be separated for correct recycling.
- For environmentally sound recycling; contact your local Nokia service point or check local regulations for correct disposal of household electronics.
- Batteries are collected separately for battery recycling. Do not throw used batteries into household waste.
- Please separate the packaging material according to responsible waste disposal options and sorting for recycling.
- See the **Recycling Map** on <http://www.nokia.com/environment> to find the nearest collection point for used mobile phones and accessories.

<sup>3</sup> Dependant on size, location and materials of the part

All information in this eco-declaration is based on scientific analysis and/or data provided by suppliers. There may be some variance in the information.
