

ECO-DECLARATION FOR NOKIA IP260

Product type: IP260

Weight: 3.5 kg

Size: Height: 1.6 in x Width 8.5 in x Length 15.95 in

Materials

The product does not contain¹:

- Azo colorants
- Asbestos
- Benzene
- Beryllium Oxide
- Chlorofluorocarbons CFCs/HCFCs/Halons as banned in the Montreal Protocol
- Polychlorinated Biphenyls (PCB) or Polychlorinated Terphenyls (PCT)
- Short Chained Chlorinated Paraffins
- Endangered species of flora and fauna

The product does not contain the following substances in accordance to the EU RoHS Directive 2002/95/EC:

- Cadmium
- Chromium VI
- Lead (in mechanical plastic parts, solder or components)
- Mercury
- Polybrominated Biphenyls (PBB) or Polybrominated Diphenyl Ethers (PBDE) in Printed Wiring Boards, mechanical parts and components

¹ In levels more than 100 PPM by weight in the product

All information in this eco-declaration is based on scientific analysis and/or data provided by suppliers. There may be some variance in the information.

Further material information

This product is manufactured using Lead-free solder paste.

Energy consumption

The information below is given for the following power supply:

Operation:	52W
Efficiency at Max:	81%
Efficiency at Nom:	85%

Nokia is a signatory of the "EU Code of Conduct" efficiency of external power supplies for electronic and electrical appliances.

Recycling and disassembly

All mechanical plastic parts have been marked in accordance with ISO 11469 and ISO 1043-1 to 4, where practically possible².

Product has been marked according to WEEE directive requirement for recycling. Do not dispose your product as unsorted to municipal waste.

The covers of the product have been designed for easy disassembly at the end of the product's life cycle.

The battery can easily be removed from the product without tools if necessary.

Gluing of different materials has been avoided.

Most of the screws in the product can be opened by one tool.

INSTRUCTIONS FOR THE USER

- Please do not throw electronic devices into household waste but separate them for correct recycling.
- For environmentally sound recycling; contact your local Nokia service point or check local regulations for correct disposal of household electronics.
- Batteries are collected separately for battery recycling. Do not throw used batteries into household waste.
- Please separate the packaging material according to responsible waste disposal options and sorting for recycling.
- See the [Recycling Map](#) on our web pages to find the nearest collection point for used mobile phones and accessories.
