SUPPORT GUIDE FOR

# THE NOKIA 5210 WITH AN INFRARED DATA CONNECTION IN A POCKET PC DEVICE

**NOKIA**

# Contents

# 1. INTRODUCTION

How to configure Pocket PC device to function with Nokia 5210 phone as a modem with it

- Pocket PC device and Nokia 5210 phone are the basic requirements

- Data services (at least outgoing data) should be activated in order to be able to make data calls

- Decent GSM coverage and also at least half of the battery left in both devices, as the data connection's power consumption is usually quite high.

# 2. SETTING UP A NEW CONNECTION

1. Go to the Start menu and select Settings

2. Select Modem

3. You should now have a list of available connections; just click on the New Connection… option.

4. Now complete the settings as shown in the figures below:

*Figure 1. Select a modem and check the Baud Rate.
After that tap Advanced…*

*Figure 2. Check Connection preferences. Especially that the Flow Control selected is HW. Tap OK on upper right corner and then tap Next.*
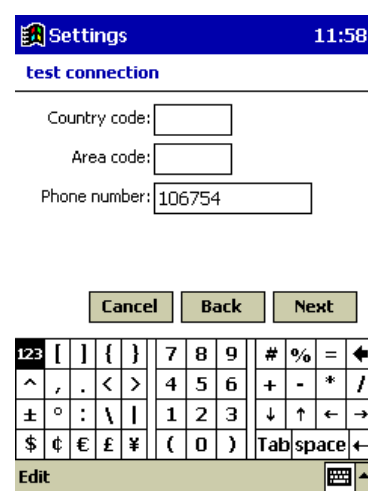

*Figure 3. Type in the ISP's phone number and then tap Next.*

|---|---|---|

*Figure 4. Uncheck the Wait for Dial tone before dialling check box and tap Finish.*

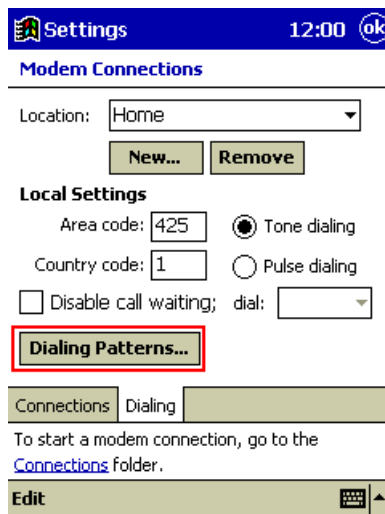

*Figure 5. Now go to Dialling leaflet and go to Dialling Patterns…*

*Figure 6. In some cases you may need to edit these to get the phone number right when dialling.*

**Tip:** If you wish to make a 14.4 Kbps connection then put the following dial-string in to the Extra dial-string… box:

Extra dial-string modem commands:

+cbst=14

## 3. MAKING A DIAL-UP CONNECTION

1. Go to the Start menu and select Programs
2. Select Connections
3. You should now have the icons of the available connections; click on the connection you have just created (Figure 7).
4. Fill in your User name and Password and tap Connect (Figure 8)
5. Figures 9 and 10 shows the Status screens of the connection
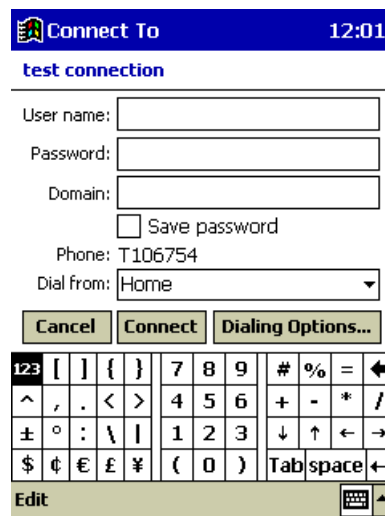

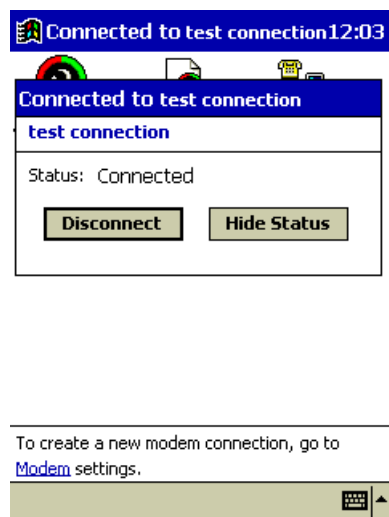

*Figure 7.*

*Figure 8.*

*Figure 9.*

*Figure 10.*

6. You should now be connected to your ISP, so just start your Internet Explorer or Inbox.

# 4. HANGING UP THE CONNECTION

1. Go to the Start menu and select Today

2. Tap the connection icon in the lower right corner and
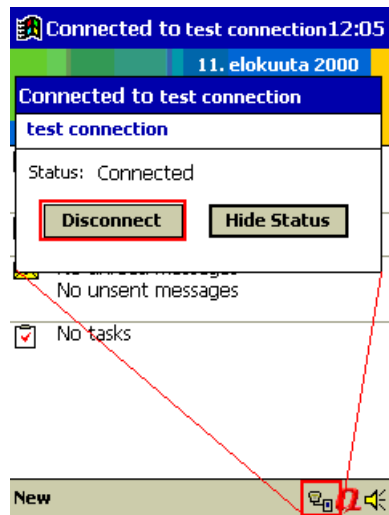

3. Select Disconnect (Figure 10).
