1. INTRODUCTION

This guide briefly describes how to begin using Nokia Content Copier. For more detailed information on the use of the Nokia Content Copier, please refer to Online Help in the Nokia Content Copier application.

The Nokia Content Copier consists of the following features:

- Enables the copying of data between two Nokia phones (described later in this document)
 - Phone book (names and numbers), Caller Groups
 - Calendar
- Sends back-up data on your Nokia phone to a PC (in CVS format), and then restores it to your phone Phone book (names and numbers), Caller Groups
 - Calendar
- Erases data from your phone (only from the Nokia 6210)

2. SYSTEM REQUIREMENTS

To install and run the Nokia Content Copier, you need:

- An Intel-compatible PC equipped with Windows 98/Me, Windows 2000
- At least 30 MB of free disk space

For connection between the Nokia 6210 and a PC you need at least one of the following connection sets:

- Cable connection: The DLR-3P connection cable (available separately)
- Infrared connection: An infrared port in computer

Note: Bluetooth connection is not supported.

The following Nokia phones are supported by the Nokia Content Copier

Nokia 5110/Nokia 5130/Nokia 6110/ Nokia 6130/Nokia 6150	The DAU-9P serial cable
Nokia 6250/Nokia 7110	Infrared connection/the DLR-3P serial cable
Nokia 8210/Nokia 8850/Nokia 8890	Infrared connection
Nokia 6210	infrared connection/ DLR-3P serial cable

Note: In this guide, all references to personal computers (PC) are also applicable to laptop computers.

The infrared connection is only available for Windows 98/2000.

3. USING THE NOKIA CONTENT COPIER

1. Exit all Windows programs that could reserve the COM: or IrDA port
2. Start the Nokia Content Copier
3. Follow the instructions on the screen, and note the following:
 - Data can only be transferred *from* the Nokia phone models listed earlier in this document, and the *target* phone can only be the Nokia 6210. This applies to all actions in the Nokia Content Copier.

The process of copying data between the Nokia 6110 and the Nokia 6210 is briefly illustrated below:

Figure 1. Connecting source phone and selecting the connection type for it.

Figure 2. By clicking the *More Information* button you will receive more information about connecting your phone.

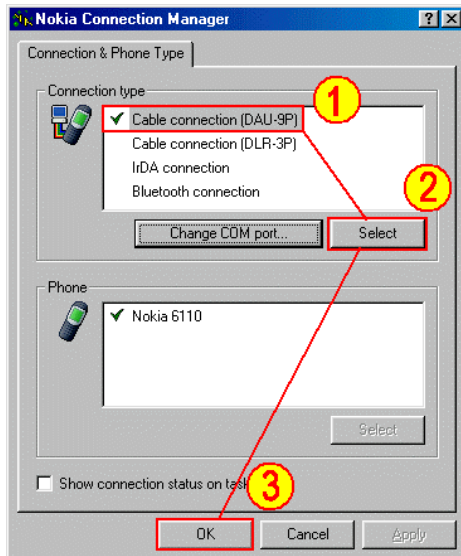

Figure 3. By clicking the *Connection* button the Nokia Content Copier will launch the Nokia Connection Manager. Select the connection type and phone model if several are listed.

Figure 4. A few steps later, when you begin transferring data to your Nokia 6210, you will be asked to select the data you want to transfer. You can also edit the *Details* of the Data type as shown in the next figure.

Figure 5. In the Details screen you can select the data items to be transferred to your phone, and if you wish, you can use some old data on your hard disk (must be in .CVS format) you can do so.
