1. INTRODUCTION

For reading and sending MMS messages via the Nokia 7650, you need to have an Internet Access Point (IAP) configured to your Nokia 7650. For further information how to configure IAPs please refer to the user guide.

Also, your service provider may be able to send some, or all, of the required settings to you via a special short message called an Over The Air (OTA) message. After you have received and saved the settings, you can start using the MMS application or edit the settings as described below.

Note: To be able to use *High speed* (refers to HSCSD [High Speed Circuit Switched Data]) or *GPRS* (*general packet radio service*), the network service provider has to support these features, and if necessary, to activate them for your SIM card. When using High speed or GPRS, extra charges may apply, even for received data calls within your home network. Check with your network service provider for details on their pricing.

2. MMS SETTINGS ON PHONE

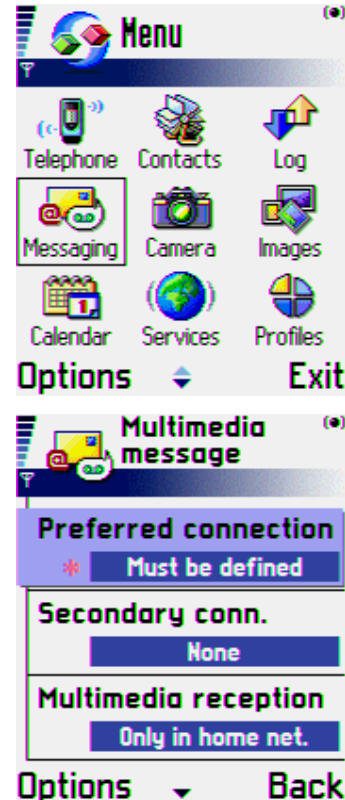

1. Open **Messaging** folder.
2. Press **Options** and select **Settings** from the list.
3. Highlight **Multimedia message** and press the joystick

Note: All fields marked with * are mandatory fields and you must fill these fields.

4. **Preferred connection:** Choose from the list containing all available IAPs. Note, that you must be able to connect to the MMS server via the given IAP.

Note: If there is no IAP defined you will get a pop-up asking if you want to define it now. For further information how to configure IAPs, please refer to the user guide.

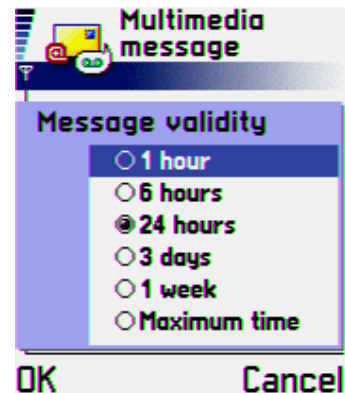

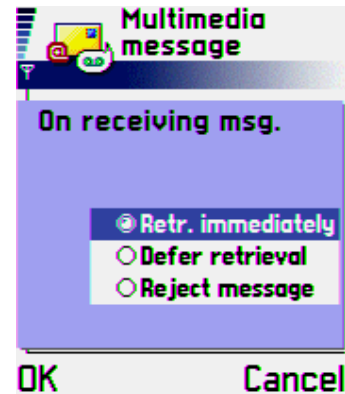

5. **Secondary connection:** Defines which access point is used as secondary access point with MMS.

Note: Preferred and secondary connection must have same homepage settings pointing to same the MMS centre. Only the data connection can be different.

6. **Multimedia reception:** With this settings you can limit MMS message reception. Options are **Only in home network** (only when you are your own GSM operator network area)/**Always on /Off**
7. **On receiving msg:** Here you can define how you are going to receive incoming MMS messages. Options are **Retr. Immediately** (without any confirmation when MMS is incoming) / **Defer retrieval** (message is fetched when you have changed back to **Retr. Immediately mode**) and **Reject message**.
8. **Allow anon. Messages:** Options are **Yes** and **No**. With this setting you can reject MMS messages coming from anonymous sender.
9. **Receive adverts:** Options are **Yes** and **No**. With this setting you can reject MMS messages containing advertisements.
10. **Receive report :** Options are **Yes** and **No**. With this setting you can control whether delivery reports are received or not.
11. **Deny report sending:** Options are **Yes** and **No**. With this setting you can control whether delivery reports are sent or not.
12. **Message validity:** here you can set how long your messages are stored in MMS server if recipient does not download it. This works in the same way as in short message settings
13. **Image size:** Here you can define the size of image in MMS messages you send. The options are **Small** (maximum size of image is 160*120 pixels, message with some text and picture takes ~10kb) and **Large** (maximum size of image is 640*480 pixels, message with some text and picture takes ~40kb)
14. **Speaker:** IYou can define here speaker voice source if the MMS message includes sound. The options are **Normal** (uses earpiece speaker) and Loudspeaker (uses hands free loudspeaker).

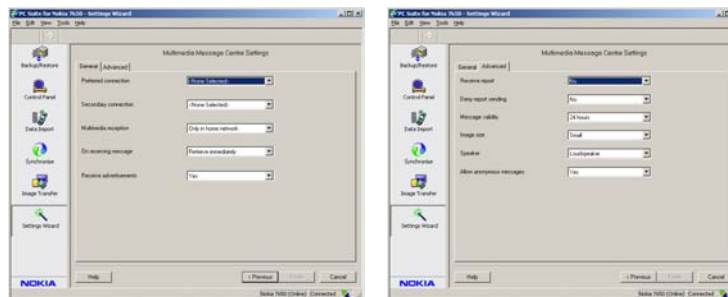

You have now set up an MMS account.

3. MMS SETTINGS WITH PC SUITE

You can enter same settings to your Nokia 7650 using Settings Wizard in PC Suite for Nokia 7650. You must have Remote connection configured to Nokia 7650 first.

1. Open PC Suite for Nokia 7650 and connect your Nokia 7650 to your PC via Bluetooth or infrared
2. Select **Settings Wizard** from left side toolbar.
3. Press **Next** button
4. Select **Change Phone Settings Manually** and press **Next** button
5. Select **MMS settings** and press **Next** button.
6. If you already have MMS settings defined on your Nokia 7650 you get an option to copy existing MMS settings or create new one from scratch.
7. Now you can enter the settings to the PC Suite.

8. When the account is ready press the **Finish** button to send the account to your Nokia 7650.

You have now set up an MMS account.
