

This Quick Guide is a generic guide for both Nokia Card Phones (1.0 and 2.0). When you are asked to select the modem you will see *Nokia \*\*\*\**, please select one of the following:

Nokia Card Phone 1.0	Nokia Cellular Card Phone
Nokia Card Phone 2.0	Nokia Card Phone 2.0

## Quick Guide to Using the Nokia Card Phone with Carbon Copy 5.0

### SETTING UP YOUR NOKIA CARD PHONE TO WORK WITH CARBON COPY 5.0 AS A FAXMODEM

If you haven't yet installed Carbon Copy 5.0 please do so before continuing and check also that you have the Nokia Card Phone installed and that it works.

1. Connect your Nokia Card Phone to the computer and start Carbon Copy 5.0
2. Now go to **Options – Communications** and select **Nokia xxxx** as one of your connection types, so that you are able to receive data calls from another computer using Carbon Copy (Figure 1).

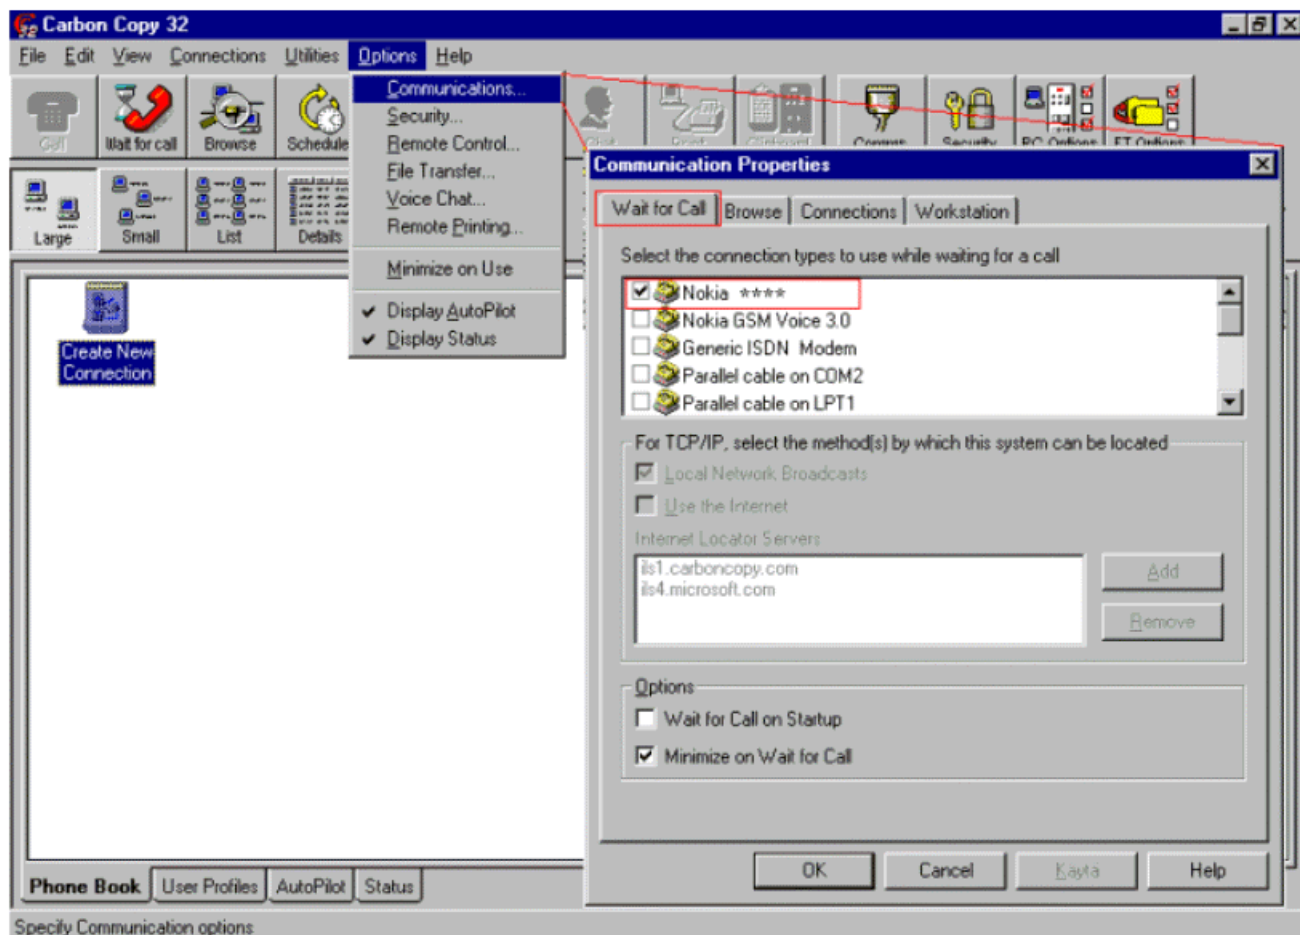

Figure 1. Accessing the program's setup and selecting the appropriate modem.

3. Double-click on **Create New Connection**, click to select the connection type that you will be using and after that click on **Next** (Figure 2).

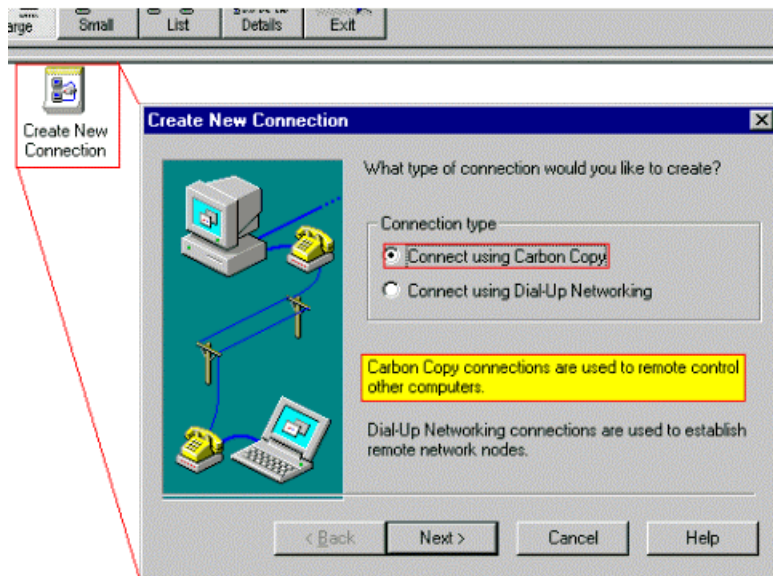

Figure 2. Creating a new connection.

4. Now Carbon Copy will configure your Nokia phone to work as a faxmodem. Just fill in the required fields and remember to select the correct modem (Figure 3).

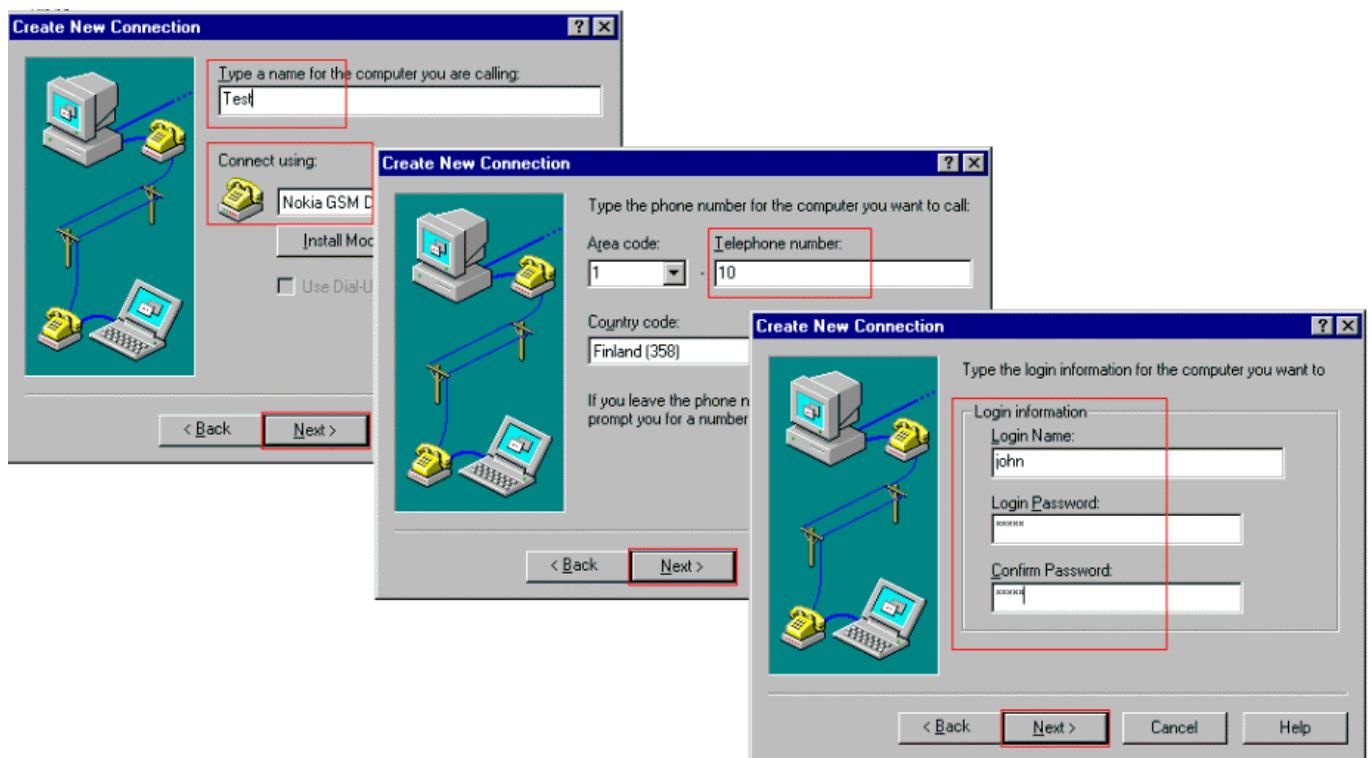

Figure 3. First three steps to creating a new connection.

7. Finally to complete your new connection, in the first dialog box select the utilities to start when a connection to a remote computer is established and in the last one just click on **Finish** (Figure 4).

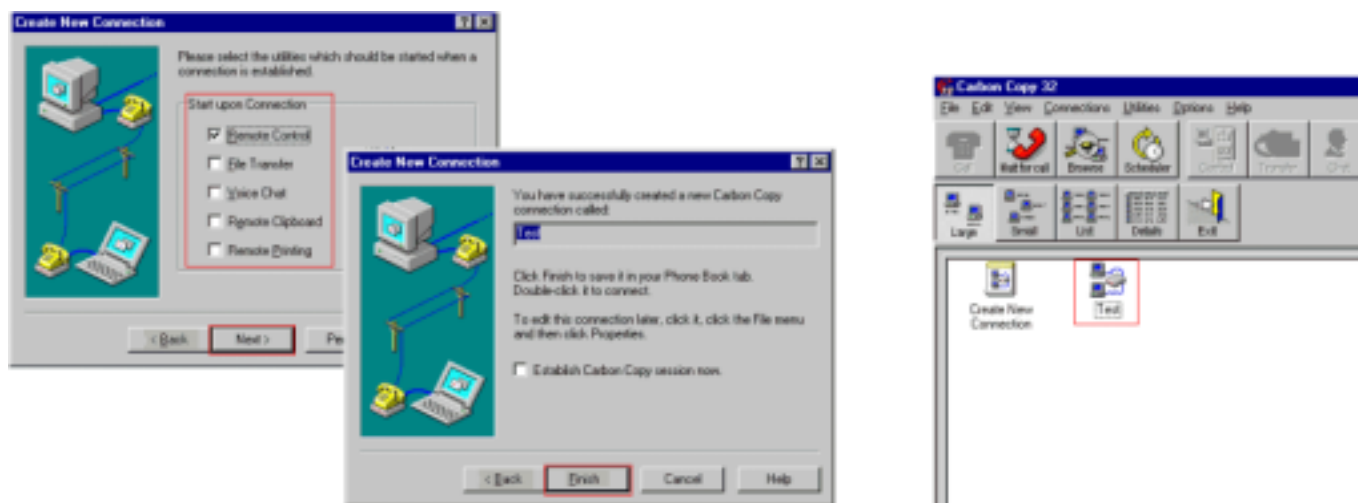

Figure 4. Two last steps to go through to get a new connection ready for use.

8. To test your new connection just double-click on its icon and check that the **Login Information** and **Connection Information** are correct; after you have checked these you can click **Connect** and you should get a dialog box similar to that shown in the figure (Figure 5).

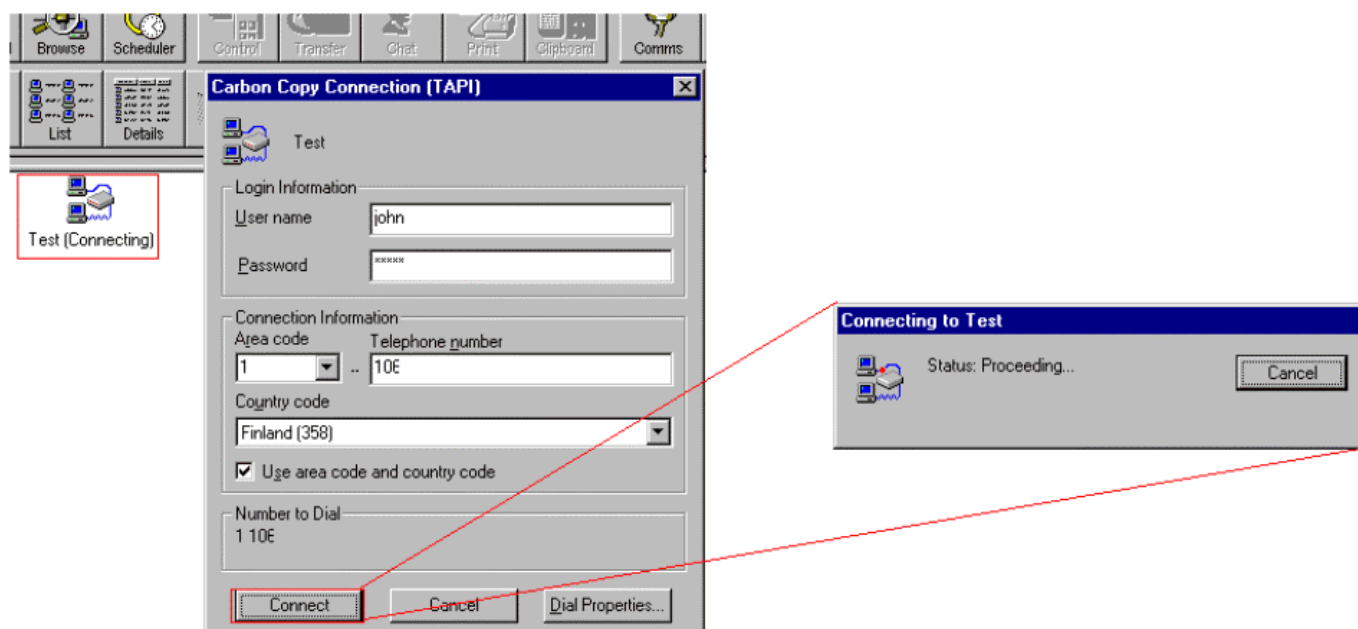

Figure 5. Making your first data call using Carbon Copy 5 and a Nokia Card Phone.
