Psion 5 configuration	2
1.1 General rules about infrared in the Nokia 8210	2
1.2 Psion 5 modem configuration.....	2
1.3 Psion 5 dial-up connection configuration.....	2
1.3.1 Making a dial-up connection	3
1.4 Psion 5 Comms (terminal) connection configuration	3
1.5 Message suite configuration	3

1. PSION 5 CONFIGURATION

If Psion Message Suite is not installed on your device, please download it from www.pSION.com and follow the installation instructions given there. Message Suite is an integrated set of applications which provides e-mail, fax and web browsing capabilities for the Psion Computers Series 5 handheld computer. This guide is compiled for Message Suite version 1.52. After successful installation of Psion Message Suite you can proceed with the specific steps for the Nokia 8210 listed below:

1.1 General rules about infrared in the Nokia 8210

When you are making a connection (call) first activate the infrared reception in the Nokia 8210 by pressing Menu and clicking the up button once and then clicking "Select". You can then start the dialling procedure. The Psion Infrared connection is terminated when the call is ended.

1.2 Psion 5 modem configuration

1. Select *Control Panel*
2. Select *Modems*
3. Select *New*
4. Type Name: Nokia 8210
5. Speed: 57600
6. Connect via: Infrared
7. Fax class: Auto
8. Click OK.
9. Current modem: Nokia 8210 – click OK

1.3 Psion 5 dial-up connection configuration

1. Select *Control Panel*
2. Select *Internet*
3. Select *New*
4. Select Based Upon: *Standard settings*. –Press *OK*
5. On Psion's screen there should appear a "New Internet Service" window.
6. Edit Service
 - 6.1. Type Name (internet service provider)
 - 6.2. Connection type: *Dial-Up*
 - 6.3. Type *Phone Number*
7. Select *Done*
8. Select *OK* from "Internet Service Settings".

Now you should be ready to start using the Web browser application. If you have carried out the configuration before and you would like to edit the connection configuration select Edit instead of New in point number three in the list above.

1.3.1 Making a dial-up connection

1. From Extras select Web. If the web browser will not start and Psion tells you that something is wrong in the configuration, follow the instructions Psion gives you on the screen.
2. From the Web window you will see where you should write the URL you want to visit. After you have written the URL press Enter on the keyboard. On the screen a pop-up window Connect to Internet should appear.
3. Check that the connection settings and the phone number are correct. The modem is the one that uses the Nokia 8210.
4. Before pressing OK check that the Ir-link is active in your Nokia 8210. If the link is not active, activate it from the Nokia 8210. If the link is active press OK in Psion.

Psion should be now looking up the host address you have chosen. When you want to quit browsing choose file from the menu bar and then disconnect from the network. After that you can close the Web browser (*file – close*).

1.4 Psion 5 Comms (terminal) connection configuration

When you are using a terminal only, you will not need to download Message Suite.

1. Press *system*
2. Open *menu – tools – remote link...*
3. Select *off* and press OK
4. Press *Extras*
5. Select *Comms*
6. Open *menu – tools – communication settings*
7. Select: Use comms port: *infrared*
8. Select OK.

Now you should see "Online" in the upper right corner.

9. Activate the Ir-link from your 8210.
10. Type AT and press "Enter". Now you should have an active infrared connection and you can give AT commands.

1.5 Message suite configuration

1. Select *Extras*
2. Select *Email*
3. Set your e-mail settings: Menu – Tools- Settings - Email...
4. Set your Fax settings: Menu – Tools – Settings - Fax...

Now you can send and receive e-mail and fax messages.

Create a new e-mail or fax

When you have finished your message select "Done (put in outbox)".

1. Open local outbox
2. Select *send*
3. Select *Send faxes* or *Send email*
4. **Send Fax**
 - 4.1 You will see a "connect" dialogue box. Check that the Fax number, Location and Modem (Nokia 8210) are correct.
 - 4.2 Activate Infrared in the Nokia 8210 phone - This will activate infrared reception
 - 4.3 Click OK in the Psion 5 dialogue
 - 4.4 Now Message Suite sends the fax

5. Send E-mail

5.1 You will see "Connect to Internet" dialogue. Check that the Internet service, Number to dial and Modem are correct.

5.2 Activate Infrared in the Nokia 8210 phone - This will activate infrared reception.

5.3 Click OK in the Psion 5

5.4 Now Message Suite makes a connection to the Internet
