1. SCOPE OF DOCUMENT

This document lists all resolved and known issues of software version 5.0 beta of CarMenu.

The software files can be found in the web under www.nokia.com/ck-300.

2. RESOLVED ISSUES

The following issues have been resolved with release version 5.0 beta:

- Support of display resolution 640*360 pixels.
- Support of Arabic language.

Version 5.0 beta works only for mobile devices with resolution 640*360 pixels. For other resolutions other versions - e.g. version 2.8 – are required.

3. KNOWN ISSUES

The following issues are known with version 5.0 beta:

- Nokia N97
 - dialer access possible via menu button; sometimes camera opens, sometimes dialled numbers, messages or clock
 - by accessing music tracks via “Albums” or “Artists” having lots of tracks stored on the mobile device restarts CarMenu
- Nokia N97 mini
 - dialer access possible via menu button; sometimes camera opens, sometimes dialled numbers, messages or clock
 - by accessing music tracks via “Albums” or “Artists” having lots of tracks stored on the mobile device restarts CarMenu
- General: automatic rotation of mobile device is not supported; i.e. different files need to be installed for both portrait orientation and landscape orientation

Support of music tracks protected by WM DRM (Windows Media Digital Rights Management) needs an update of software in mobile devices when bug has been fixed.
